ANALYSIS OF STUDENTS' FEEDBACK

Student feedback is an essential part of the learning process. The university collects feedback from students on various aspects using a structured questionnaire. Feedback collected from students was analysed and steps taken to enhance the quality of teaching and learning and look for opportunities to improve overall performance, including student engagement in the classroom to achieve excellence in learning teaching and learning. This questionnaire aims to collect information on the satisfaction of the facilities and services provided to create an atmosphere conducive to teaching and learning. The information provided by the students was kept confidential and used as important feedback to improve the quality of the various courses and programs offered by the institution. To obtain complete results, statistical analysis and graphical presentation were carried out. Responses are rated on a five-point scale. The students indicate their level of agreement with the following statements by selecting the appropriate option. Total consolidated responses received from odd and even semester students. IQAC analysed the responses from the student feedback form on the program design and submitted the report to the authorities, who in turn discussed various aspects, including meetings with faculty members.

STUDENTS SUGGESTIONS

- Additional sports activities should be arranged.
- Details concerning students ought to be posted on the internet notice board.
- Textbooks in Hindi should be made available to students in Hindi-medium classes.
- Additional projectors need to be set up in classrooms to enhance comprehension.
- Students need to be informed about the schedule of courses.

The feedback and suggestions received are talked about with the management, and matters of particular importance are dealt with in the official meetings for the next term.

ACTION TAKEN

- Libraries frequently acquire the newest versions of books according to the curriculum.
- Projectors have been set up in classrooms to utilize various educational tools, aiding students in a deeper grasp of the material.
- Steps have been taken to enhance the internet and Wi-Fi services available on campus.
- Students receive updates on job placement or program results during the initial Orientation/Induction Programs.
- There has been an increase in industrial and field trips, and teachers are encouraged to employ more hands-on, experiential learning methods. Additionally, teachers are incorporating PowerPoint presentations to improve the learning experience.
- There are now more programs focused on career guidance and the development of soft skills.
- The Alumni Department has organized engaging discussions with notable alumni, covering topics such as guidance and career advice, as well as motivational speeches.
