

## EXCHANGE PROGRAMMES

Student exchange programs are a brilliant way to expand your learning and gain an international perspective on life. These programs make students eligible to study abroad in another country or region, while still fulfilling their academic prerequisites. Through student exchange programmes, students can learn about different cultures, explore new places, make friends from around the world, and even improve their language skills. It is, indeed an incredible way to become an early bird westerner. With so many advantages, it's no wonder that student exchange is becoming increasingly popular.

IFE has tied up with some international universities for the student exchange programmes. The sole purpose of this initiative is to show the different type of education impartment at a foreign place. It is a way to learn how the delivery of knowledge happens at other universities of the world. We have tied up with the Sheffield University, the Columbia University and the MIT.

This programme is like a boon for students who wish to do international courses and to shine on the international corporate arena.

## ABOUT THE COLLEGE

INSTITUTE FOR EDUCATION (A Unit of Educational and Social Development) is one of the leading institutions in the Seraikella-Kharsawan district of Jharkhand which comes under IXth schedule of constitution. It has recently launched vocational courses like Bachelor of Computer Application (BCA) and Bachelor of Business Administration (BBA). Institute For Education has not only equipped students through different other courses but has also provided more than 700 students with an authentic environment to inculcate and enhance the student's inherent potential and skills and providing them employability in different sectors. A dedicated group of students of NSS are actively participating in social work. The courses are approved by AICTE are affiliated to the Kolhan University Chaibasa, Jharkhand (a Government recognized University). It has also conducted various National Seminars, Workshops and International Seminar to give hands-on- experiences to the students and teachers from all over world. This institution is situated amidst the natural beauty of the countryside and the urban glamour of an industrial area of Seraikella-Kharsawan district. The flowing river and picturesque backdrop of low hills on one side and large tracks of forest on a sprawling campus are an ideal place for learning. It has been growing from strength to strength ever since it was established in the year 2014.

## STATE-OF- THE-ART INFRASTRUCTURE

Institute for Education boasts of a state-of-the-art infrastructure which comprises

- Technology driven ICT labs
- Highly curated modern libraries with extensive collection of books, journals, e-books and e-magazines
- Expansive Classrooms with audio-visual aids for teaching
- A relishing and lively Cafeteria providing multi cuisine food to the students
- Playgrounds, courtyards for outdoor sports activities
- Certain rooms dedicated to providing study space to students
- Lavish green surrounding

We also have clean and hygienic restrooms separate for boys and girls and rooms specially dedicated for our faculty and non-teaching staff. The college also takes pride in maintaining differentiated common rooms for boys and girls, fully equipped computer labs, a brightly lit airconditioned conference room and an ambience inexplicable. This way IFE becomes a marvel in the greens of Bijay, a place located in Seraikella which has now become a cynosure of all eyes; thanks to Institute for Education for being an establishment on a par with any academic institution across India in terms of infrastructure.

## COMPREHENSIVE CURRICULUM

IFE, Seraikella has a comprehensively designed course structure for every course. The curricula consist of complete coverage of all the topics in Bachelor of Business Administration in a very optimal way. We have included subjects like

- Accounting
- Business Economics
- Taxation
- Business ethics
- Strategic management etc.

This shows that the BBA course encompasses almost all aspects of business studies. Every topic that is a part of the curriculum accentuates the in-depth knowledge and practical exposure to business.

We have also included case studies and HBR magazine to empower our students in the relevant business scenario. If seen from academic perspective the syllabus / curriculum turns out to be a highly rich content and if from a pragmatic point-of-view it displays a learning meant to make a candidate industry ready. This means that a student becomes adept in both academic and practical knowledge. The design of the curriculum purely focuses on developing a connection between studies and industry.

## INTERNSHIPS AND INDUSTRIAL TRAINING / EXPOSURE

Internship is a period of time during which someone works for a company or organization in order to get experience of a particular type of work. It is almost mandatory for a student pursuing a professional course to do an internship programme in an industrial set-up. It makes a student fit to work in a company and also enhances his/her confidence level. An internship magnifies the chances of getting placed in a placement drive and amplifies the employability of the candidate as well.

After the internship, the student gets a chance to work in companies catering similar products and services which ultimately makes the candidate happy; in monetary terms and with contentment.

We provide:

- Live projects
- Training and Development
- Certification Programmes
- Off Job training
- On Job Training
- Real Time Internships

Internship Opportunities for our BBA & BCA Students through **AICTE INTERNSHALA**

The Institute For Education (IFE) collaborates with AICTE Internshala to provide BBA and BCA students with valuable internship opportunities. AICTE Internshala connects students with

- Diverse, high-quality internships across various industries,
- Enhances their practical skills and employability.
- Students benefit from flexible durations, skill development, and mentorship from industry professionals.
- Successful completion earns a nationally recognized AICTE certificate.

Students can apply through the IFE Academy portal or AICTE Internshala website or through this brochure by scanning at the QR code given below. You Just have to submit a resume, a cover letter, and a statement of interest. This initiative equips students for successful careers with practical experience and professional growth.
