Policy Statement

The College will adapt the principle of the “best practicable environmental process” in the delivery of waste management service. The college will apply a “Waste Management Hierarchy” approach which gives top priority to the waste prevention, followed by re-use, recycling, recovery and final disposal.

WASTE MANAGEMENT HIERARCHY

The College recognizes the importance of meeting these legal requirements and to manage its waste responsibility, reduce the volume of waste sent to landfill and maximize reuse and recycling where ever it is possible.

The college requires all teaching and non-teaching staffs, students, guests, and anyone else making use of the premises to comply with this policy. Any solid waste generated in the campus shall be managed and handled in accordance with the compliance criteria and the procedure laid down in Municipal Solid Waste.

Implementation Procedure

It will be compulsory on the part of the Principle Investigator / Head of the Department to

report changes / additions in hazardous waste generation and steps taken to reduce generation of waste per unit of production.

According to the Hazardous Waste guidelines, College can store dangerous waste for a period not exceeding 90 days and will manage a record of sale, transfer, storage, recycling and reprocessing of such waste unless the concerned State Pollution Control Board has extended the stipulated period.

The waste could either be reused / recycled or disposed of in captive or common treatment, storage and disposed facilities available in the campus, or incinerated as proposed in the waste hierarchy list.

WASTE MANAGEMENT

Waste avoidance and waste reduction must first be attempted, then re use, retrieval and recycling of waste in an environmental manner.

Reuse, retrieval and recycling of non-hazardous waste

Institute For Education will explore opportunities for reuse, recovery and recycling of waste in an environmental manner. Paper waste will be recycled to make paper boards and packing materials.

Safe disposal of hazardous waste

For waste that cannot be recycled, safe and environmentally sound disposal will be adopted based on the waste category. The design and operation criteria of disposal facilities should be strictly followed as per the guidelines laid down by the CPCB.

Setting up of general treatment, storage and disposal facilities

General treatment plant as Vermi-compost for departmental and kitchen waste will be set up and treatable and non- biodegradable waste will be separated and treated according to their physical nature.
